# Coin Crash White Paper

> 🎁 Coin friends all over the world unite to fight for coins and earn the future together!

Vision

Coin Crash is a Chinese community based on the recent explosion of "sheep a sheep" and the development of Web3 version of the game. The main elements of the game for the asset elements of the crypto world, including all kinds of common crypto assets, common trading markets and all kinds of blue chip NFT assets. So that more traditional players are in the process of playing the game to understand the crypto world, help crypto culture break the circle, make the game social fun and earn rewards, through social communication and viral referral, rapid expansion of word of mouth and influence. At the same time, NFT rewards are implanted in the game, and players will receive cryptocurrency rewards after clearing the level.

The crypto world is magnificent, ups and downs of the world, full of opportunities, but also full of risks . We listened to so many stories of getting rich overnight, but also saw a lot of people sadly left, and the economic environment is not good . The world's currency friends have been a bitter bear market for a long time . In this context, we hope to help currency friends express their emotions through an explosive encryption game, hearty to guard their own currency and fight to earn the future.

The game is completely free, there is no need for any advance recharge, prepayment, etc.! And every day after the game is cleared, you can earn crypto assets NFT and have the opportunity to get huge rewards!

Link 🔥 **game:** game.Coinwb.com

Reward Description:

1. The game is completely free, no restrictions, players can go through unlimited levels every day.

2. Every day, all successful users will earn limited NFT rewards. The number of NFTs is limited on a first-come, first-served basis.

3. Each user records only one successful customs clearance record per day, and multiple successes are counted as one.

4. Each game can be used by watching advertising/sharing prop cards, improving the efficiency of clearance.

5. The top three users receive additional airdrop rewards daily.

6. Users can freely trade NFTs in OpenSea.

Game tutorial (omitted)

Introduction

The basic gameplay of the game is the same as the Web2 version of the sheep, maintaining the basic gameplay of the game . The game is simple and interesting, helping currency friends to get started quickly, and at the same time innovative adding the P2E mechanism . Through NFT as the game income target, all the income of the game will be equitably distributed to all players, and earn fair income while playing the game!

How to play

Coin Friends Circle Ranking List

Players can choose to join their own camp and fight for their favorite token field. The game area is divided into distributed storage area, Ethereum area, public chain area, NFT area, DAO community, gamefi area, Bitcoin area, Ethereum area, BNB area, TRON area and other regions. After joining the region, users can fight for their own region, improve the ranking of their chosen token camp, and the first camp can also share additional rewards.

NFT Badge Rewards

NFT badge as a clearance reward . Players will get different NFT rewards when passing through different levels . The reward will be airdropped directly to the player's wallet, no need for the player to receive NFT as a clearance certificate, but also an asset certificate for future rewards . Holding NFT , you will be eligible to join the Coin Friends Club. NFT is a game asset deployed on the Matic block network, is a standard ERC1155 protocol, with tradable, transfer and sale characteristics . The airdrop of subsequent games will be sent directly to the holder's wallet address, and will gradually develop gameplay such as NFT pledge, see the game roadmap for details.

Game items

Remove the card

Removing the prop card is to use props in the game. You can remove 3 bricks and put them next to it, thereby increasing the number of squares that can be eliminated. It can be obtained by sharing/watching advertisements/purchasing tokens, etc.

Withdraw Item Card

Retract Item Cards are items that can be used in the game. You can withdraw the last clicked brick and put it back in its original position. You can get them by sharing/watching ads/buying tokens.

Shuffle effect cards

Shuffle Prop Cards are props that can be used in the game to randomly disrupt all the bricks on the field. Can be obtained by sharing/watching ads/token purchases, etc.

Economic model

Bonus pool

Total NFT bonus pool

Only 5555 NFTs per level

Bonus pool allocation rules

1. The NFT bonus pool adopts a limited allocation rule, and all clearance users divide the bonus pool.
2. The number of prize pools is fixed on a first-come, first-served basis.

The first level of the game player only game badge reward, after passing the level will get NFT asset reward . According to the level of clearance, the higher the NFT asset level.

Subsequent adjustments according to the situation.

NFT

Dynamic Release

- Each level is limited to 5555NFT, first come, first served, no longer produced after casting
- Clear the NFT only in-game mining, no pre-mining and pre-sale
- According to the output of the level, it will be output when someone clears the level

NFT holding interest

Hold the clearance NFT to get the Bitcoin Club pass card

- A) Member PASS joins the Coin Club Club and enjoys all the rights and interests of PASS. The Coin Club Community is a distributed community club composed of users and councils who hold game clearance cards. The community can unlock future fields and benefits by activating the roadmap.

- B) Get exclusive access to the club.

- C) Access to Future Token Airdrops

- D) **Automatically grant the qualification of major customer of the exchange and enjoy the qualification of fee reduction on the designated exchange.**
